Doing Money Better Together

- Curriculum to accompany *Thriving in Love and Money* includes DVD, book, and discussion guide
- Based on original research about how men and women think about and deal with money
- Book and research supported by Thrivent Financial, a Fortune 500 company

Over 90 percent of couples experience some level of tension around money. So many books try to fix the surface problems, such as how to budget and what to prioritize when it comes to finances, but the issues go much deeper than just a simple spreadsheet.

How do men and women view money differently? What do most couples fight about? How can they get on the same page? *Thriving in Love and Money* is based on original research that gets to the heart of these issues.

This discussion kit that accompanies the book includes a 6-session DVD led by Shaunti and Jeff, as well as a discussion guide filled with questions and prompts that will help you think through your own underlying attitudes about money. But it doesn't stop at just understanding your partner; this curriculum will give you practical steps toward coming together as a couple around money.

EXCERPT

As a leader, you want people to be at their best, and I've found the most effective way to draw out the best is with *belief*. When people feel believed in, championed, and honored, they become the best version of who they are. . . .

Words are immensely powerful, and what we say to people matters more than we know. The Bible says, "Death and life are in the power of the tongue" (Proverbs 18:21 NKJV). Words go into people's hearts and heads; people go to sleep thinking about what you said to them, whether good or bad. If you are going to be good with people, you have to learn to measure your words, to use your conversations and comments for good, not for criticism.

Being able to affirm people's gifting and successes says a great deal about you. I find the kindest, most gracious and affirming people have a strong sense of identity and security. They are secure in their own value, so they can value others. If you're having trouble expressing words of affirmation, maybe you need to find someone who believes in you, someone who can help you believe in yourself.

Loyalty is a two-way street. The more you believe in others, the more they'll believe in you. That same intuition that helps them smell a fake a mile away will draw them to you. They'll not only want to learn from you, hang out with you, and listen to you but they'll also be able to take your constructive feedback.

An Engaging Leadership Book for Millennials and Gen Zers

- Author’s personal social media reaches over 300,000 people, and almost 100,000 through Zoe Church
- Author’s podcast—*Leadership Lean In*—over 450 five-star ratings, and new episodes debut in the top ten of religion and spirituality podcasts
- Author regularly speaks nationally at events like C3 and Passion conferences, and internationally at churches including Hillsong Australia and South Africa

We know leadership isn’t exclusive to corner offices and multimillion-dollar budgets—some of the best leaders are the mentors and technicians who are more comfortable behind the scenes. But what if being an effective leader isn’t just about having innovative ideas and high levels of productivity? What if becoming a great leader is more about prioritizing self-awareness and people skills than production and performance?

Help! I Work with People is not a book about leadership theory, but rather a handbook on how to connect with people and influence them for good.

With his signature transparent and relatable storytelling, Chad Veach uses modern research and biblical principles to encourage you to lean into your leadership potential regardless of your level of influence or experience. In short and easily digestible chapters, he addresses the three phases of becoming a quality leader:

- learning to lead the hardest person you will ever be in charge of—yourself
- recognizing the power of becoming a people person
- creating a culture and environment where the team’s shared vision can grow

People are the most important part of life. Let’s learn how to lead as if we like each other.

EXCERPT

Anxiety is difficult to explain because it's difficult to understand. I've spent most of my adult life trying to figure out the line between my clinically diagnosed anxiety, character flaws, and emotional weaknesses and how in the world I can recover. And that's what brings us here.

These pages are filled with my journey—the greatness, the challenges, and everything in between—of seeking and accepting peace in the midst of diagnosed anxiety, routine overthinking, and chronic over-analyzing.

And whether you have clinically diagnosed anxiety or deal with any other type or form of anxious, racing thoughts, I hope you know that it's okay to feel that way and still have faith. Faith that you can still have joy. Faith that you can *still* have a song to sing, even if you're not a good singer.

If we're being honest, our faith *during* these times is what can show us just how powerful the act of having faith truly is. It's easy to believe that everything will be okay when everything is, well, okay. But it's the moments where we feel like everything is crumbling and completely falling apart that *faith* proves just how dynamic and life-giving it can be.

We're going to get through this.

We're not going to pretend that a book or a song or any earthly treasure can lead us to any version of a perfect life. But we are going to work hard to find hope and support as we navigate toward the definition of *quiet* and learn how to embrace it.

GRAMMY-Nominated Singer Speaks Up about Living with Anxiety

- Author has a combined social media reach of 1.6 million and regularly travels for singing and speaking engagements
- Author's podcast has over 1.3 million streams and over 700 5-star ratings
- Author has appeared on a range of media outlets, including TBN's *Better Together* and *People* magazine

Many of us live in between two extremes when it comes to mental health. On one side, we are told to embrace anxiety as a part of our being. The best we can do is medicate and live with it. On the other side, we're told that freedom can be found if we believe hard enough, and that we're at fault if we can't "get over" the thoughts that hold us back.

But what if there is another way? A way to acknowledge the struggles and learn how to manage the things that trigger us while believing in the promises and goodness of God?

This is the tension that Jamie Grace has lived in for most of her life. Known as a singer with a vibrant personality, Jamie has spent the last decade touring and speaking about her faith on stages and in front of the camera. But behind the scenes she was diagnosed with Tourette syndrome, OCD, ADHD, and an anxiety disorder as a preteen. Since then she has faced inner battles that have included panic attacks and self-harm. In *Finding Quiet*, Jamie shares what she has learned about managing the negative effects of her diagnoses, harnessing the positive outcomes, and leaning into the journey God has led her on.

Learn to Respond in Faith to Anxious, Uncertain Times

- Blends beautiful storytelling and practical help to grow spiritually during difficult circumstances
- Foreword by Emily P. Freeman
- Author's first book endorsed by Mark Batterson, Myquillyn Smith, and Mark Buchanan

We all long for certainty in life, yet things often don't go as we expect. When facing illness, job loss, strained relationships, and other struggles, our impulse is to question God and strive to fix things ourselves.

In this book, Shelly Miller, a trusted ministry leader, explores how difficult times can actually be purposeful times of spiritual growth. Weaving the exodus story from the Bible with her own story, she shares how to focus on God rather than trying to overcome challenges in our own limited strength. Each chapter features a simple spiritual practice to help us enjoy the peace and security that is only possible through Christ. Uncertain seasons will soon be translated as an "aha" instead of an "oh no."

Compelling Stories of Modern and Historic Martyrs

- New look for this modern book of martyrs
- Over 1.5 million sold
- Revised and updated with 35% new content

You may think that martyrs are a relic of the past, but there are more Christian martyrs today than there were in AD 100—the days of the Roman Empire. Now in the 21st century, according to the Center for the Study of Global Christianity, approximately 100,000 Christians are martyred around the world every year. Their stories must be told.

“Remember the Lord’s people who are in jail and be concerned for them. Don’t forget those who are suffering, but imagine that you are there with them” (Hebrews 13:3 CEV).

Let the ultimate sacrifice so many have made to follow Jesus—in days gone by and even today—inspire you to give your all for the Lord.
