Left at an orphanage as a child, Thea Reed vowed to find her mother someday. Now grown, her search takes her to Pleasant Valley, Wisconsin, in 1908. When clues lead her to a mental asylum, Thea uses her experience as a post-mortem photographer to gain access and assist groundskeeper Simeon Coyle in photographing the patients and uncovering the secrets within. However, she never expected her personal quest would reawaken the legend of Misty Wayfair, a murdered woman who allegedly haunts the area and whose appearance portends death.

A century later, Heidi Lane receives a troubling letter from her mother—who is battling dementia—compelling her to travel to Pleasant Valley for answers to her own questions of identity. When she catches sight of a ghostly woman who haunts the asylum ruins in the woods, the long-standing story of Misty Wayfair returns—and with it, Heidi’s fear for her own life.

As two women across time seek answers about their identities and heritage, can they overcome the threat of the mysterious curse that has them inextricably intertwined?

- Bunn’s worldwide book sales total more than 7 million copies

The waters off the West African coast are a menacing red, full of algae thick enough to stand on in places. In nearby villages, mysterious deaths start to occur—and the panic mounts. But before an alarm can be sounded, the sea currents shift, the algae vanishes, and the deaths stop. Everyone is relieved when things return to normal, and local government officials are happy to sweep the publicity nightmare under a rug.

An American biological researcher, Avery Madison, is dispatched by his employer to piece together exactly what happened, having long feared an ecological disaster just like this could occur. He’s had little evidence to go on before now, and what he finds in West Africa is rapidly disappearing. But Avery knows the danger hasn’t disappeared—it has just moved on.

When parts of the Caribbean start turning a familiar red right before hurricane season kicks into high gear, the implications are clear. If Avery and his colleagues can’t convince the world of what’s about to happen, toxic destruction could be loosed on American soil. Will their efforts prove too late?
